### General Notes

- Prices for services exceeding three days of provisioning time are available on request.
- Additional stand constructions, stand equipment, technical stand equipment and stand catering are available upon request.
- The provision of the ordered services will take place during setup times.
- All technical devices provided via the bcc will be supplied with the required current connections. If additional current connections are required for client's own devices, a separate alternating current connection (article no. 612347) must be booked.
- The bcc does not provide catering services on commission. Prices are inclusive of standard bcc tableware.
- The order must be placed at least 14 days or 21 days prior to the start of the event. The order deadline of 21 days prior to the start of the event applies to the ExpoWall and Octalumina modular stands as well as all positions that require the sending of print files. In the event of a later order the bcc reserves the right to charge a rush order fee of at least 20 %.
- All print files must be sent to us (by e-mail or file hosting service) at least 21 days prior to the start of the event. Otherwise the production cannot be guaranteed.
- Services are subject to availability.
- A fillable PDF order form is available at <https://bcc-berlin.de/en/downloads>.

**Stand Construction: ExpoWall**

Details	Sample Photo	Price
ExpoWall modular stand: size according to choice; back wall element incl. digital colour print; one long-arm spotlight 150 W per running metre; alternating current connection (230 V, 10 A, up to 2 kW) incl. three-way power strip Article no. 2934771		225.00 EUR per running metre

**Please Note**

- By default, modular stands are provided with a height of approx. 250 cm. In the rooms B 01.01, B 01.02 and B 01.03 modular stands will be provided with a different height of approx. 230 cm.
- The modular stands per running metre can be booked in 0.5 m partitions.
- With a stand width of 450 cm or more the depth is approx. 50 cm instead of approx. 25 cm.
- If an ExpoWall modular stand is booked, an additional information sheet with print dimensions and instructions on how to lay out and share files will be provided.

**Stand Construction: Octalumina**

Details	Sample Photo	Price
Octalumina modular stand: size according to choice; luminous back wall element incl. digital colour print; alternating current connection (230 V, 10 A, up to 2 kW) incl. three-way power strip Article no. 3787473		250.00 EUR per running metre

**Please note**

- By default, modular stands are provided with a height of approx. 250 cm. In the rooms B 01.01, B 01.02 and B 01.03 the modular stands will be provided with a different height of approx. 230 cm.
- The modular stands per running metre can be booked in 0.5 m partitions.

Rubbish bin Article no. 1000942		9.00 EUR per piece

### Please Note

- For the printing of the counter the print file must be sent to us (by e-mail or file hosting service) at least 21 days prior to the start of the event.
- The print file should be sent as a vector graphic in PDF format on a scale of 1:1. Image data should at least have a resolution of 72 dpi when a scale of 1:1 is used.
- Fonts must be converted into curves/paths.
- For preset colours, please send a colour sample and precise colour specifications to the bcc. If layers overlap, please ensure that none of them are accidentally set to overprint as this may lead to a distortion of colours.

### Stand Equipment: Miscellaneous

Details	Price
Storage Article no. 612549	75.00 EUR per m <sup>2</sup> per day
Additional booth cleaning Article no. 612521	1.10 EUR per m <sup>2</sup> per day

### Floor Covering in Level D

Room	Floor Covering
D 01	Linoleum

### Maximum Weight

Level A, B and C	500 kg/m <sup>2</sup>
Level D	250 kg/m <sup>2</sup>

### General Information

- The bcc reserves its supervisory authority in all dealings with clients and their staff, this right being executed by the responsible project manager or any authorised third party.
- The bcc is not liable for theft or personal injury during the setup, dismantling, or realisation of the event. The client is liable for all personal injuries or property damages occurring through the use or presentation of his stand elements, objects, or exhibits. The bcc is not liable for damages that might occur through interruptions of the power supply.
- The operation of electrical appliances or equipment and the bringing of domestic animals requires the consent of the bcc.
- The client commits himself to the efficient use of energy. It is therefore requested that all electronic appliances, e.g. at exhibition stands, are turned off at the end of the event day. The bcc reserves the right to switch off all energy supplies to the stand overnight should the exhibitor not comply with these regulations.
- The client respectively, is responsible for insuring that all effective technical regulations (DIN, VstättVO, etc.) are met.
- The use of a forklift truck for loading and unloading goods in the forecourt area must be coordinated with the bcc beforehand. The use of forklift trucks within the building is not permitted.
- All means of transport must be equipped with rubber or nylon wheels only.
- The bcc only permits the use of adhesive tape explicitly designated for the respective surfaces. This especially applies to the laying of floor coverings. Adhesive tape can be purchased for 12.00 EUR per roll (incl. VAT) at the bcc's Front Office. It is the operator's responsibility to ensure that the adhesive tape suits its intended purpose of use, as this is dependent upon various factors including temperature, strain, materials to be taped and handling. The bcc GmbH assumes no liability.
- No workings are permitted that may damage the building fabric (e.g. to drill in floors and ceilings or to fix anything to walls). If risky construction works become necessary during the setup or dismantling, the endangered areas are to be protected.
- The bottom edges of the stand may not create a potential tripping hazard and must be accessible for wheelchairs.
- Due to the bcc sprinkler system the construction of stand ceilings is not permitted.
- By default, a basic cleaning of the floorings is carried out on a daily routine. If this service is not requested, it must be explicitly communicated to the bcc.
- The emptying of rubbish bins during the event is included and not charged extra. The disposal of waste beyond the usual extent will be charged according to expenditure.
- The rooms A 10, B 10 and C 10 are emergency staircases and therefore must adhere to fire protection guidelines (i.e. contain no fire load).

### Deliveries and Goods for Temporary Storage

- Deliveries can only be accepted within the setup times booked by the client. For all deliveries arriving when neither stand staff nor stand builders are present at the bcc, an announcement in written form is required. Deliveries that cannot be clearly assigned to an event or use (stand, symposium, etc.) are not accepted.
- If no storage room for exhibitors is available and if space allows, storage during the event as well as after the end of the event is possible at a cost of 75.00 EUR per m<sup>2</sup> per day.
- Loading and unloading of deliveries and goods for temporary storage is the responsibility of the client or a client-commissioned forwarding agency.
- The collection of temporarily stored goods must take place within dismantling times unless other collection times have been agreed upon in writing. The bcc needs an advance announcement in all cases. All temporarily stored goods must be clearly labelled.

- In both cases the bcc is not liable for the completeness and the condition of the deliveries and temporarily stored goods. This also applies to possible damages resulting from the storage at the bcc, as long as these damages did not result from intent or negligence on behalf of the bcc. It is the duty of the client, exhibitor or stand builder to inspect all deliveries for completeness and condition. Any damages that may have been incurred must be duly documented with the proper claims form to the bcc. § 438 HGB (code of commercial law) applies. Claims made after the initial delivery inspection are considered void.
- If any unannounced goods remain at the bcc after the end of the event, the bcc reserves the right to either store these goods or to dispose of them at the owner's expense. The cost of storage space amounts to 75.00 EUR net per and m<sup>2</sup> per day plus a 20 % rush order fee. The decision between storage and disposal is at the discretion of the bcc.

### **Stand Catering**

- The bcc holds the exclusive rights concerning any catering. It is not permitted to bring food or beverages from external caterers.
- External caterers are generally refused access to the bcc. The use of private coffee machines etc. at the stand is also not permitted. If this exclusivity is violated during the event, the bcc reserves the right to charge a service fee for external products.

### **Technical Stand Equipment**

- The bcc offers technical equipment, e.g. displays or notebooks incl. on-site support and replacement devices.
- Complex IT services will be performed by the bcc Technical Services division.
