

EGC 2022 – PRESS KIT

About EGC 2022

The European Geothermal Energy Congress will take place from 17 to 21 October 2022 at the BCC, Berlin, Germany. Every three years, stakeholders from all areas of the geothermal sector meet at the EGC, which this year is jointly organised by the European Geothermal Energy Council (EGEC) and the Bundesverband Geothermie e.V. (BVG) in Berlin.

Social Media

You can support the event by:

- Tweeting via your social media networks using the below suggested tweets or the attached social media cards
- Using the relevant hashtag: #EGC2022
- Using organisers tags for twitter: @EGEC_geothermal, @BVG_eV
- Using organisers tags for LinkedIn: @EGEC_geothermal, @Bundesverband Geothermie e.V.

- **Fraunhofer IEG Roadmap for deep geothermal**
- **Fraunhofer IEG Roadmap for shallow geothermal**

Tweets suggestions

1. A stage to discuss the current state of #geothermal #energy in Europe and its role in our future energy system: the European Geothermal Congress is taking place now, #EGC2022 www.europeangeothermalcongress.eu
2. A number of extra activities are organised to enrich your experience at the European #Geothermal Congress 2022, for both deep and shallow geothermal enthusiasts. Check out the programme for Site Visit & Excursions at #EGC2022 <https://europeangeothermalcongress.eu/congress-programme/>
3. Don't miss the latest developments in Policy, Markets, Science and Innovation at the upcoming European #Geothermal Congress 2022: check the Congress Programme for the parallel sessions of your interest | #EGC2022 <http://europeangeothermalcongress.eu>
4. The new geopolitical & energy market realities require the drastic acceleration of clean #EnergyTransition & increase of EU's energy independence from unreliable suppliers & volatile fossil fuels. #Geothermal is the key.
5. There is no other way of meeting the #NetZero #climate goals if we don't #decarbonize #heating,#cooling & power. #Geothermal is here to provide concrete solutions and clean up our act! 🇪🇺 <https://www.egec.org/egec-action-plan-eight-point-plan-to-repowerEU-with-geothermal/>
#EGC2022 #REPowerEU #Berlin
6. Today we're at the #EGC2022 to discuss the role of #geothermal in #RePowerEU & how it will accelerate the #EnergyTransition! Stay tuned!
#EGC2022 #REPowerEU #geothermal
7. #Geothermal power is the most versatile, constant, and least expensive source of #energy available. Let's tap into it!
#EGC2022 #geothermal #solution #energytransition
8. Amid urgent demands for reliable clean energy, the answer is one: #geothermal!
